Welcome

On October 1, 2011, St. Peter's Health Partners was created through the merger of St. Peter's Health Care Services, Northeast Health and Seton Health. With 11,700 employees in more than 125 locations, St. Peter's Health Partners provides a wide array of services to thousands of people each day.

St. Peter's Health Partners provides the same outstanding care our patients have come to expect from all three health systems. By combining our complementary strengths, we can significantly improve our ability to meet the health needs of our community.

While our new organization has begun operation, full implementation of the merged entity may take up to three years.

In the meantime, the websites of our partners will remain accessible while we begin work to create a combined website for our newly merged healthcare system.

Several years ago, our boards imagined a better way to provide health services for the greater Capital Region and beyond. Today we have created St. Peter's Health Partners, a health system that will increase access to high-quality care and improve the well-being of our neighbors.

Our three organizations, St. Peter's Health Care Services, Northeast Health and Seton Health, have long legacies of providing high-quality, compassionate care while continuously adapting to changing community needs. This is a tribute to the dedicated physicians, associates, nurses, staff and volunteers who help us carry out our missions each and every day. We have combined our strengths to create an organization that continues these traditions with increased creativity and renewed commitment.

With over 11,700 employees and more than 125 locations, St. Peter's Health Partners forms the most comprehensive network of healthcare and community services in the Capital Region. At St. Peter's Health Partners, we are caring for generations of our neighbors and friends — from newborns to seniors and every age in between. Even though we're big, our individual facilities offer you the chance to work in a friendly, supportive environment in a variety of settings.

We believe in hiring and retaining the best-qualified and knowledgeable people to achieve our mission within the communities we serve. Our staff shares this commitment, as well as a strong sense of responsibility toward one another. From the moment you walk through our doors, it is evident that "our success is in our people."

St. Peter's Health Partners takes great pride in our employees. In appreciation, we strive to provide an outstanding work environment with skilled colleagues, educational opportunities to help advance their skills or learn new ones, and competitive pay and benefits.
